Diploma of Pre-Hospital
and Retrieval Medicine

Associateship in Pre-Hospital
and Retrieval Medicine
Training Program

- Diploma from candidate point of view
- Application to become a training site
- Trainee View – Good, Bad, Transferable Skill

Associateship in Pre-Hospital
and Retrieval Medicine
Training Program

- Duration – 6-month FTE
- Who
- What
 - WBAs
 - Training Supervisor Reports
 - Written Exam
 - Practical Exam
- Case Volume
- Buddy Shifts

Associateship in Pre-Hospital
and Retrieval Medicine
Training Program

- Training Supervisor Reports
- 4 Multi-source Feedback
- 2 Mission Assessments
- 4 Direct Observation of Technical Skills
- 3 Direct Observation of Procedural Skills
- 3 Case-based Discussions
- Task Logbook

Associateship in Pre-Hospital
and Retrieval Medicine
Training Program

Opportunity for SATS shifts with direct feedback

Increased integration with retrieval services, PICU, NICU, ECMO to get learnings from them

Multi-tasking, prioritising, increased comfort managing the sick patient and setting clear timeframes for objectives

Fully Accredited Sites	Pre-hospital Accredited Sites	Retrieval Accredited Sites
≥ 30 direct patient contact	≥ 30 direct patient contact	≥ 30 direct patient contact
≥ 20 aeromedical platform	≥ 20 aeromedical platform	≥ 20 aeromedical platform
≥ 10 Pre-hospital	≥ 10 Pre-hospital	NA
≥ 20 Retrieval	NA	≥ 20 Retrieval
≥ 20 Critical, High Acuity, Patients	≥ 20 Critical, High Acuity, Patients	≥ 20 Critical, High Acuity, Patients
≤ 10 stood down/rescue/clinical coordination	≤ 10 stood down/rescue/clinical coordination	≤ 10 stood down/rescue/clinical coordination
≤ 10 simulated scenarios	≤ 10 simulated scenarios	≤ 10 simulated scenarios

Associateship in Pre-Hospital and Retrieval Medicine Training Program

“gave direction to my learning for the fellowship and encouraged regular study of relevant topics - I think when you first start you're not really sure where to go for resources of how in depth to go - the curriculum helped a lot with that”

“I would've loved to have the weekly teaching when I was doing it - the regular time with senior members of the team would have been so helpful and I'm glad that exists now”

“adaptability - recognising the limitations and opportunities in prehospital work has really helped me to understand a patients journey prior to arriving in resus”

Curriculum

Diploma of Pre-Hospital and Retrieval Medicine

Developed by

Australasian College for Emergency Medicine
 Australian College of Rural and Remote Medicine
 Australian and New Zealand College of Anaesthetists
 College of Intensive Care Medicine of Australia and New Zealand
 Royal Australian College of General Practitioners

November 2022

v1.1

PHRM 795

Associateship in Pre-Hospital
 and Retrieval Medicine
 Training Program

Associateship in Pre-Hospital
and Retrieval Medicine
Training Program

“The huge variety in work each and every day. Going from straightforward inter-hospital transfers to first on scene at multi casualty major trauma and everything in between”

“Sometimes going multiple shifts in a row without any jobs can be disheartening and can give the sense of rapidly de-skilling”

“Being a more flexible team member who can be more independent with common tasks e.g. Running infusion pumps, drawing up drugs”

Associateship in Pre-Hospital
 and Retrieval Medicine
 Training Program

“Intensive mentorship from people working at the top of their game”

“I would love for there to be further integration and training days with the wider pre-hospital workforce”

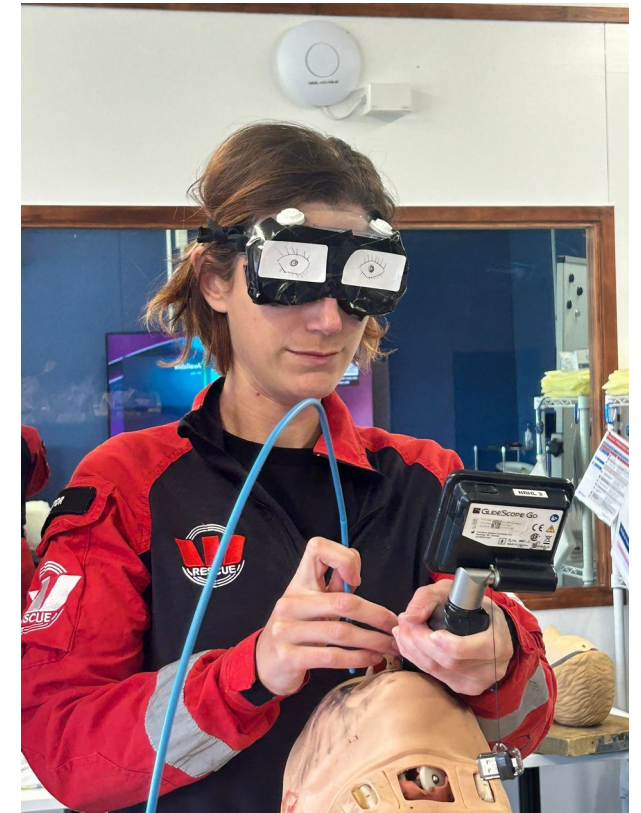

“Communication. The importance of the initial PAUSE, absorb and listen moment”

Pros and Cons

- Dedicated Standard
 - Interoperability
 - Talent
 - Shared Learning
 - Multi-specialty
 - Supervised Practice
 - Improving Links
 - Improving QI / Governance
- Cost \$
 - Hard Work
 - Lonely
